

1 want to shoot Tommy Zeigler. He just
2 wanted to get away from there and that's
3 what he did.

4 So, here he is. Here he is. He's
5 got bodies on the floor. He's got blood
6 all over him. He didn't get Edward. I
7 think for the first time Edward Williams
8 didn't do what Tommy Zeigler told him to
9 do. What can you do if you are in a
10 situation like that? You have got to do
11 something desperate. My goodness, after
12 being hit on the head and shot he changed
13 his glasses. He took off his watch. He
14 called the VanDeventer residence and asked
15 Mr. VanDeventer, "Is Don there, my good
16 friend, the Chief of Police." Would a man
17 that has just been shot by a band of
18 thieves and robbers do that? There's
19 something wrong with that. That's not
20 reasonable. That's not the reasonable
21 act of a man under that circumstance.

22 You will have the opportunity to
23 examine Mr. Zeigler's clothing. You will
24 see a big blood stain right in the area
25 where Edward Williams said he saw a dark

1 stain. You will see a soaked area of
2 blood under the left armpit of those
3 shirts. That could have gotten there
4 only by his having someone in his arm
5 who was Type A blood. He didn't get
6 that crawling around on the floor. Who
7 was bleeding Type A blood?

8 You know, Chief Thompson kept a
9 pretty good log. He has checked the
10 radio log and everything. He knows what
11 time he got to the VanDeventer home. It
12 was 9:18. Just as he got there the phone
13 rang and it was the call to Mr. VanDeventer
14 by Tommy Zeigler. What was he doing all
15 that time? This was after 9:00 o'clock.
16 Laying there on the floor bleeding? Don't you
17 know if you have been in the back of
18 that store laying there unconsciously
19 bleeding from a bullet wound that went
20 in him and out of him that Mr. Anasa would
21 have scraped up some Type O blood there?
22 The only Type O blood that came out of
23 that store was way over there where poor
24 Virginia Edwards was bleeding at.

25 I want you to look at Mr. Zeigler's
